STUDENT SPEAKER

CALEB CELESTE
Class of 2026

Caleb Celeste is a proud graduate of Howard Community College, earning an associate degree in general studies while preparing to pursue a future in engineering physics and mechanical engineering. Originally from the Democratic Republic of the Congo, his journey as an immigrant has shaped his perseverance, discipline, faith, and passion for understanding how science and engineering can solve real-world problems.

Originally planning a more traditional path, Caleb discovered that growth often comes through uncertainty and challenge. Balancing rigorous coursework in mathematics, physics, and chemistry taught him resilience and reinforced his determination to continue pushing beyond his limits. He believes success is not about avoiding obstacles but about pushing through hardships and finding the strength to keep moving forward.

This fall, Caleb will continue his education at the Clarence M. Mitchell Jr., School of Engineering at Morgan State University, where he plans to study engineering physics and further explore his interest in mechanical engineering and innovation. He hopes one day to contribute to advancements in technology and engineering that positively impact communities and inspire future generations of students pursuing STEM fields.

As student speaker for HCC's 55th Commencement Ceremony, Caleb hopes to encourage his fellow graduates to embrace uncertainty, take risks, and remain confident in their ability to overcome adversity. He believes that while life may not become easier, faith, perseverance, and determination allow people to grow stronger, wiser, and better prepared for the future.

COMMENCEMENT SPEAKER

**THE HONORABLE
BROOKE E.
LIERMAN**
Comptroller of
Maryland

The Honorable Brooke Lierman is the 34th Comptroller of the state of Maryland and the first woman to be independently elected to one of our state's constitutional offices. After running a strong, policy-focused and grassroots-led two-year campaign, she was elected with over 60% of the vote in November 2022.

She is an attorney by training, practicing as a civil rights and disability rights lawyer for many years, and prior to her election as Comptroller, she served for 8 years as a member of the House of Delegates representing part of Baltimore City. While in the House, she spent time in leadership roles on both the Appropriations Committee and the Environment and Transportation Committee. Additionally, she was the House Chair for the Joint Committee on Pensions, sat on the Joint Committee on Ending Homelessness, and founded the Maryland Transit Caucus. Brooke successfully passed landmark legislation to invest in and improve public transit and public schools; end suspension and expulsion of young students; fund evidence-based gun violence prevention programs; aid sex trafficking victims; close loopholes in affordable housing laws, and create the office of statewide broadband.

As Comptroller, she is dedicated to creating a Maryland that is more equitable, more resilient, and more prosperous so that all Marylanders can reach their full potential. She and her husband and two school-age children live in Baltimore City.

HONORARY DEGREE RECIPIENTS

THOMAS CLEMENT

Inventor and Entrepreneur

WONSOOK KIM

Visual Artist

Founders of the Thomas & Wonsook Foundation

Thomas Clement is an inventor, entrepreneur, and philanthropist whose contributions have had a measurable impact on both industry and education. Over the course of his career, he has developed patented technologies and built successful business ventures grounded in innovation and problem-solving. His commitment to education is demonstrated through more than \$3.5 million in philanthropic giving to Howard Community College, where his support has funded student scholarships, academic program enhancements, and workforce development initiatives. His investments have directly expanded access for students pursuing high-demand fields and career training. In addition to financial contributions, Clement has remained engaged in advancing institutional priorities that align education with industry needs. His lifetime achievements reflect a consistent focus on practical innovation, economic growth, and creating pathways for student success within the Howard County community and beyond.

Wonsook Kim is an internationally acclaimed visual artist and philanthropist whose work and giving have had measurable impact in both the arts and higher education. Born in South Korea and educated in the United States, she has built a distinguished career with more than 100 exhibitions across 14 countries, working in painting, printmaking, sculpture, and multimedia. Her artistic achievements were recognized globally, including being named “Artist of the Year” by the United Nations in 1995.

Alongside her husband, she has contributed more than \$3.5 million to Howard Community College, including a historic \$2.5 million gift—the largest in the college’s history—supporting engineering scholarships, equipment, and workforce programs. Her work has also been exhibited at the college, reinforcing her active engagement with its arts community.

ACADEMIC TRADITIONS AND SYMBOLS

JOYCE M. BOYD, MDCM, COMMENCEMENT ADDRESS

The Joyce M. Boyd, MDCM, Commencement Address is supported by an endowment fund, named for the former director of the Howard County Health Department. It was established to assist in securing distinguished and stimulating guest speakers for the intellectual enrichment of the students and community at the college's annual commencement ceremony.

THE MACE

HCC's mace, carried by a faculty marshal, heralds the arrival of the platform party. The mace was handcrafted by Greg Jenkins, an employee, using wood trimmed from college trees. Chiefly used in medieval times as a weapon, the mace lost its warlike appearance by the fourteenth century and assumed a more ceremonial function. Today the mace survives as a symbol of authority.

HONOR SOCIETIES, LEARNING COMMUNITIES & SCHOLARS

ALPHA DELTA NU

To promote scholarship and academic excellence in the profession of nursing, the Organization for Associate Degree Nursing established the Alpha Delta Nu Honor Society.

GONFALONS

The tradition of gonfalons began in ancient Rome. The college's gonfalons signal the arrival of the faculty and the students. One gonfalon represents the college and five others represent each degree and certificate awarded. The college gonfalon will be carried by this year's overall inspiring faculty member.

ACADEMIC REGALIA

The caps and gowns worn at colleges and universities date back to the Middle Ages. Monks and students wore them to keep warm in the damp and drafty twelfth-century castles and halls of learning.

The gown graduates wear has pointed sleeves, is untrimmed, and worn closed. Graduates also wear black mortarboards with long, black tassels. When degrees and certificates are conferred, graduates shift their tassels from the right to the left.

Honors students wear gold tassels and double gold cords. Graduates who served in the U.S. Armed Forces wear double cords of red, white, and blue.

Members of the Board of Trustees are entitled to wear doctoral gowns with black velvet, with hoods indicating the degrees actually held by the wearers or prescribed for them by the institution. Persons who hold degrees from other institutions wear the appropriate attire including cap, gown, and hood.

ALPHA ETA

The Alpha Eta Society is the national scholastic honor society for allied health professions. Their motto, "Together We Serve," represents inclusion of all the allied health professions.

AMBICIONES

Ambiciones promotes continued academic, professional, and personal success for students through tutoring, mentoring, and coaching.

PARENT SCHOLARS PROGRAM

The Parent Scholars Program promotes academic, career, and personal success for a community of student parents.

HOWARD P.R.I.D.E.

Purpose. Respect. Initiative. Determination. Excellence. Howard P.R.I.D.E. encourages the continued academic, professional, and personal development of students.

HOWARD R.I.S.E.

Rigor. Integrity. Scholarship. Efficacy. Howard R.I.S.E. emphasizes student-centered learning, access, and outcomes that promote academic and career advancement.

LAMBDA NU

Lambda Nu is a national honor society for the radiologic and imaging sciences.

PHI THETA KAPPA

Phi Theta Kappa is the world's largest honor society for two-year college students. The Alpha Alpha Sigma Chapter was established at Howard Community College (HCC) in 1974. Students must complete at least one semester of full-time study and maintain an overall 3.5 grade point average (GPA).

THE FREDERICK K. SCHOENBRODT SCHOLARS PROGRAM

Named after a leader in education and the first chairperson of HCC's board of trustees, the Frederick K. Schoenbrodt Scholars program offers honors level coursework as part of a supportive intellectual community designed to lead to more advanced study and transfer.

GLOBAL DISTINCTION

Global Distinction participants internationalize their studies at HCC by earning 15 global and foreign language credits, attending international events, and participating in study abroad or a domestic intercultural experience.

THE JAMES W. ROUSE SCHOLARS PROGRAM

Created in 1993, the James W. Rouse Scholars program is a selective, challenging honors and leadership program, designed for transferring to four-year colleges and universities at the end of the sophomore year.

SIGMA CHI ETA

Sigma Chi Eta is the official honor society of the National Communication Association for two-year colleges. The Beta Zeta Chapter was established at HCC in 2019. Sigma Chi Eta inducts outstanding students who have a cumulative 3.0 GPA, a 3.25 GPA for communication courses, and commitment to excellence.

THE SILAS CRAFT COLLEGIANS PROGRAM

Named after a Howard County education and civil rights pioneer, the Silas Craft Collegians program is a comprehensive academic program that helps students attain their fullest potential through skills assessment, tutoring, advising, peer support, and extracurricular experiences.

THE STEM UNDERGRADUATE RESEARCH PROGRAM

The STEM Undergraduate Research program is funded by the National Science Foundation and designed to support full-time students in bioinformatics, biotechnology, computer science, engineering, environmental science, information technology, life science, mathematics, and physical science.
