Program Outcomes for
Associate of Arts Degree in Nursing,
Practical Nursing Certificate, and LPN-RN Pathway**

ADN Program

Graduates' Success on Licensure Exam

Graduate success on licensure exams is a significant benchmark for any nursing program. Graduates' success is calculated by the Maryland Board of Nursing (MBON) and the National Council of State Boards of Nursing (NCSBN) by the number of graduates who are successful on passing the NCLEX-RN on their first attempt.

Graduates' success on licensure exam (NCLEX-RN):

Year	2024
Required minimum Maryland Board of Nursing (MBON) pass rate for NCLEX-RN	79.52%
State average for MBON pass rate for NCLEX-RN	82.97%
Howard Community College - pass rate for NCLEX-RN*	94.44.%
Howard Community College - NCSBN NCLEX-RN pass rate**	92.18%

*Pass rates reported by Maryland Board of Nursing are calculated by the fiscal year (July 1- June 30) and combine partial results from two classes. Some takers from states outside of Maryland, may be absent from these results.

**Pass rates are reported national data from the National Council of State Boards of Nursing (NCSBN); reporting from April to March of following year and are indicative of previous classes' results. All takers across the United States are included.

Graduate Satisfaction and Employment in Nursing

HCC nursing graduates are contacted to provide feedback to the nursing program 6-12 months after completion. Surveys are made available to graduates through email and the use of other technology. Graduates are encouraged to provide anonymous feedback regarding their tenure in the nursing program. Results are calculated from those graduates who choose to participate.

Graduate satisfaction is calculated based on the response to the following question: Please rate your overall satisfaction with your HCC Nurse Education Program (NEP): Exceptional, Good, Adequate, Fair, Poor. Some graduates do not seek employment immediately upon graduation due to changing life circumstances, relocation, and/or entering a Bachelor of Science in Nursing (BSN) or Master in Science in Nursing (MSN) program upon completion of their Associate degree.

Employment in Nursing is calculated by the response to the following question: Are you currently employed as a Registered Nurse? Yes or No

Graduating Class	Graduate Satisfaction	Employed in Nursing
Summer 2024	95%	100%
Fall 2024	Pending	Pending

Program Completion is calculated at 100% stated program length (4 clinical semesters) for all students enrolled in initial nursing courses. The HCC ADN program offers flexible scheduling, many students choose to attend part time, thus extending their program completion time.

Program entry Year	Program Completion
Spring 2020	60%
Fall 2020	61%
Spring 2021	63%
Fall 2021	55%
Spring 2022	72%
Fall 2022	67%
Spring 2023	70%
Fall 2023	62%
Spring 2024	65%
Fall 2024	Pending
